# Protector FIRST BASE+: Added Comfort – Multiple Applications

*Designed to maximise comfort and user appeal, the Protector First Base + safety baseball cap is the result of over five years product development in head bump protection. Safety baseball caps have proven applications in the widest range of commercial and industrial areas and the innovative First Base + will further build on these.*

## SAFETY WITH STYLE

*First Base + is designed to provide the wearer with bump protection in a wide range of low risk applications.*

- CE Certification to EN812.
- Patented flexible shell design, manufactured from durable ABS plastic.
- Breathable cap fabric and high levels of ventilation reduces heat stress and improves wearer comfort.

- Unique size adjustment improves the security of the cap on the head with a size range of 52-65 cm.

- Contamination free cap design – no risk to process – particularly suited to applications in precision engineering and the food industry.
